Presents...

RISKS TO HUMAN AND ANIMAL HEALTH FROM TETRACYCLINE-RESISTANT MICROORGANISMS OF ANIMAL ORIGIN IN KENYA

Continuous Professional Development Training by Risk Analysis Services
Participants will be awarded 20 CPD points by the Kenya Veterinary Board and a Certificate of Participation from Risk Analysis Services

What You Will Learn

- Systematic risk analysis for AMR using WOAHA standards
- Identifying, assessing and managing risks to both human and animal health from tetracycline-resistant microorganisms
- Applying the 6-step WOAHA risk analysis framework to real-Kenyan scenarios
- Developing evidence-based risk management strategies and mitigation measures
- Understanding the One Health approach to antimicrobial resistance
